

PYP Teacher

Summary

Teaching at Riverstone International School is driven by the school mission, "Riverstone International School inspires courageous journeys of academic and personal exploration to enable students to lead purposeful lives." As an International Baccalaureate World School, we are firmly committed to the IB Programmes and offer opportunities for students' exploration and growth through our five pillars of academic excellence, international understanding, community and service, leadership by example, and outdoor education.

Students from preschool through high school attend classes on a single campus. All students are enrolled in one of the International Baccalaureate Programmes:

- Primary Years Programme (preschool through grade 5)
- Middle Years Programme (grades 6-10)
- Diploma Programme (grades 11-12)

Faculty in the Elementary School at Riverstone International School experience a diversity of teaching, leadership, and community experiences. Our school's guiding principles encourage teachers and students to seek understanding, to respect themselves and others, and to take action to help the community. Riverstone believes that when teachers are committed to these principles, and are experts in their subject area and its pedagogy, they will be successful.

As at many independent schools, our faculty and staff must be flexible and open to new experiences. Our faculty and staff promote and facilitate academic excellence for a range of learners, the majority of whom are native English speakers. Teachers and staff encourage and support student-led initiatives.

Riverstone teachers and staff lead by example. Teachers collaborate and support other faculty and students and develop and refine curriculum. Teachers welcome the perspective of a broad range of opinions and life experiences, including those of our growing international population.

Our teachers organize field trips and outdoor trips, and are given the opportunity to lead national and international trips. They collaborate. Ultimately, our teachers and staff strive to provide a rich and rewarding education for our students.
